PROFILE

Experienced Software Engineer with over 2 years of hands-on experience in designing, developing, and deploying robust software solutions. I am proficient in a wide range of programming languages, frameworks, and technologies, with a passion for creating innovative and scalable applications. Skilled in leading cross-functional teams to deliver projects on time and within budget.

CERTIFICATES

Bsc Mechanical Engineering
Olabisi Onabanjo University

Nysc Certification 🔗
Rivers-State

Uptick Talent Tech Program 🔗
Software Engineering

Oracle Cloud Infrastructure 🔗
Certified Developer Professional

Freecodecamp 🔗
Responsive Web Design

HNG Internship
Backend Developer

PROFESSIONAL EXPERIENCE

Backend Developer (Contract Role)

12/2023 – present

JamaJama 🔗

- Designed and developed a robust RESTful API with multiple endpoints to support platform functionalities, optimized database schemas, and enhanced user interactions.
- Integrated essential third-party services, including Paystack for payment processing, Twilio for SMS notifications, and Postmark for email communications, to expand platform capabilities.
- Implemented secure authentication and role-based authorization to ensure data privacy, controlled access, and smooth onboarding for users and artisans.
- Focused on backend performance optimization, incorporating error handling, logging, and scalable practices for reliable and maintainable infrastructure.

Backend Developer

11/2023 – present

Holmen Tech Consulting 🔗

Remote

- Worked closely with cross-functional teams to deliver high-quality software products, participating in Agile development processes and contributing to sprint planning, daily stand-ups, and sprint reviews.
- Played a key role in the implementation of RESTful APIs and integration of third-party services with nodejs, enhancing product functionality and user experience.
- Contributed to the development of responsive web applications using HTML/CSS, JavaScript, and Reactjs, following design mockups and user interface guidelines. Participated in code reviews and collaborated with team members to troubleshoot issues and implement solutions, ensuring the delivery of bug-free software solutions.
- Collaborated with senior software engineers to design and implement software features and functionalities.

Full-Stack Developer

02/2023 – 11/2023

Mustard.ng 🔗

Lagos-State, Nigeria

- Developed and maintained scalable Node.js applications, adhering to best practices and coding standards.
- Designed and implemented RESTful APIs to facilitate communication between front-end and back-end systems.
- Collaborated with cross-functional teams to deliver high-quality web solutions, focusing on server-side optimizations for improved performance.
- Integrated third-party services and databases to enhance application functionality and data management.
- Implemented robust error handling and logging mechanisms to ensure system reliability and ease of debugging.

SKILLS

Web Development

(Node.js, Express.js, React.js, Python, Nest.js, HTML/CSS, Vue.js, Django)

Database Management

(SQL, MySQL, PostgreSQL), NoSQL (MongoDB)

Software Development Tools

(Git, Docker)

Problem-solving

Teamwork

Communication

Secure cloud native applications on OCI; Hands-on experience with OCI developer services to include OKE

API Gateway; Understanding of application lifecycle management and containerization
